

# ASW 200 SERIES

## SWING DOOR OPERATOR

The Talbot ASW 200 swing door operator is a robust and dependable unit, ideal for various commercial and domestic applications. This fire-rated unit functions as a spring-close door, ensuring safety even during power outages.

### Key Features

- 2/4 hour fire rated system, tested on a wide range of different fire core doors.
- Compact and quiet operator capable of driving doors up to 300kg and 1400mm wide
- Heavy duty spring return feature
- Obstruction sensitivity - if when opening or closing it meets an obstruction the doors will automatically re-open. When the power is off, the door is easily manually opened or closed.
- Compatible with a wide range of activation accessories including our accessible bathroom control switch.
- Two operators can be interlinked with one another allowing seamless operation of double doors.
- Compatible with all sorts of electronic locking including electric strikes, magnetic locks and drop pins.

#### Quality Componentry

Highly efficient long life and high torque brush-less DC motor alongside an intelligent microprocessor that automatically detects door weight and adjusts accordingly to ensure smooth door operation.

#### Unparalleled safety

- Obstruction sensitivity
- wide range of safety detection sensor options available

#### Fire Rated Operator

- 4 hr Fire rating - E-core doors
- 2 Hr Fire rating - Pyropanel doors
- 2 Hr Fire rating - Firecore doors
