

ASW 60 SLIMLINE SWING DOOR OPERATOR

Introducing the Talbot ASW60 Slimline swing door operator: a dependable and economical unit tailored to suit a broad spectrum of commercial and residential needs. Its low profile design and virtually silent operation make its perfect for mounting to any existing swing door, offering seamless integration and enhanced accessibility.

Key Features

- Compact and quiet swing door operator designed for door leaves up to 80kg and 1100mm wide.
- Obstruction sensitivity - if when opening or closing it meets an obstruction the doors will automatically re-open. When the power is off, the door is easily manually opened or closed.
- Simple plug and play installation. The ASW100 can be easily retrofit onto a wide range of existing manual swing doors
- Push and go function allows the door to be triggered by manually pushing the door leaf.
- Compatible with a wide range of activation accessories including our accessible bathroom control switch.

Quality Componentry

Highly efficient long life and high torque brush-less DC motor alongside an intelligent microprocessor. that automatically detects door weight and adjusts accordingly to ensure smooth door operation.

Unparalleled safety

- Obstruction sensitivity
- wide range of safety detection sensor options available

Easy To Customize

Each door controller comes standard with a wide range of inputs and outputs without the need for any additional interface boards.
